## Intensive course on research methodology – MRS/DEV2 Tina Uys, Cora Burnett – University of Johannesburg

This intesive course will deepen the knowledge the students have gained during the "Qualitative research methods". Our guest lecturers have a lot of experience in qualitative, quantitave and also mixed method research. They are very open to discussion and your ideas. All the students are

welcome to discuss their possible research or any other questions connected to research methodology. There will be also space for individual consultations and development of different research tools.
